INTRODUCTION.

We beg to hand you our **TELEGRAPHIC CODE** to facilitate any transaction that may pass between us; also a brief summary of the various departments of our business.

BANKING DEPARTMENT.

Established in 1860, we have for twenty-three years transacted business as the custodians and conservators of the money of others.

The Chicago fire, and the various financial panics that resulted disastrously to so many banks, have passed over us without any interruption to the steady growth of our business.

In soliciting the accounts of banks, bankers and merchants, we feel warranted in pointing to our record.

No safe bank will offer more liberal terms for the accounts of conservative and responsible dealers.

COLLECTIONS.

We collect on all accessible points in this country and in Europe, having special facilities for making collections in the West. We do not object to presenting several times when circumstances warrant.

Remittances promptly made or reasons given for non-payment.

FOREIGN EXCHANGE.

Every kind of financial transaction with foreign countries can be facilitated by us through our long established connections.

Bills of Exchange in any amount and on any country, bought and sold.

Travellers' Credits issued.

Commercial Credits furnished.

Cable Transfers made either way.

Bankers can draw direct on foreign countries by arrangement through us; proper blanks and instructions furnished on application.

GOVERNMENT BONDS.

We were connected with the first government loan issued for the prosecution of the civil war, and since have had to do with every loan and the changes in such loans.

There is no information concerning these loans we cannot furnish, and there is no facility for transfers and changes of these loans which we do not possess. We tender our services to banks and others.

We always have Government bonds on hand and will buy in any sums.

STATE BONDS.

The most attractive State Bond on the market is the

Minnesota State four and one-half per cent. Adjustment Bond,

interest payable semi-annually in New York.

Minnesota has grown to great wealth, has an unusually small debt, and has provided an extra security for this lot of State Bonds by placing an ample Real Estate Security behind them, which cannot be diverted from the purpose of a sinking fund for this issue.

MUNICIPAL BONDS

Are next in quality and price to United States Bonds.

The carefully guarded investments of Savings Banks and other Trusts governed by statute in the most conservative States, have long included Municipal Bonds and given them great currency. No more conservative class of investments exists. Western Municipal issues arising from the unexampled development of the West creating rapidly every sort of Municipal improvements, has furnished the most natural and largest supply, and when carefully selected and entirely legal have proved of the safest. An experience second to none enables us to advise investors with confidence—and we have always a considerable supply to present for choice.

STOCKS.

We do not undertake any speculative business, but we will execute orders for the purchase or sale outright of any stocks listed on the New York or Chicago Stock Exchanges.

COUPONS.

We will collect coupons for those keeping accounts with us of Government, Chicago City and Cook County bonds, and Chicago Car Trust Certificates, R. R. bonds and all other Securities that we deal in, free of charge.

RAILROAD BONDS.

We can furnish any railroad bond that is on the market.

There has always been a good demand from a class of investors for choice Railroad bonds. There has seldom been any loss in the first mortgage bonds of trunk lines nor on connecting lines where the mortgage is not too large and roads run through good farming districts, coal fields, etc.

CAR TRUSTS.

6 PER CENT., FREE OF TAXES.

We have for some years dealt in the issues of the Chicago Car Trust and feel some pride in the high credit these issues have sustained. These Certificates draw 6 per cent interest, and are payable quarterly from three months to seven years. Prominent Attorneys say that they are exempt from taxation.

They are secured in two ways:—1st. Upon rolling stock, of which the title is absolute in two trustees. 2d. By a lease containing all safeguards that experience has suggested, and made with a road doing a large business and earning dividends upon its stock. This lease adds to these certificates the direct obligation of the Railroad for their full amount.

COMMERCIAL PAPER.

Western Commercial Paper, well selected, is as safe as any paper you can buy.

The business paper of the merchants and manufacturers of the West represents in many instances capital as large and as surely profitable, and character as conservative and as wisely enterprising as the very best paper that can be made.

The growth of the West in accumulated capital, the vast proportions of its varied interests, and the large admixture in its business blood of men educated in the older and most conservative parts of the country, the increase and improvement of the means of communication of all sorts, are elements that in a cumulative way place its business interests in the very front rank.

We have always on hand for sale Western Commercial paper of a high grade.

GOVERNMENT LAND SCRIP.

We have always a supply of

Bounty Land Warrants,
Dodge Scrip,
Additional Homestead Claims,
Porterfield Warrants,
Sioux Half Breed Scrip,
Valentine Certificates.

Some of these will take any land, of the United States, Non-Mineral, that can be taken. Information furnished.
